

Selen + Vitamine

agilan® complementary feed

Mixable with feed

For all animal species

Composition

Soybeans toasted, wheat semolina bran

Analytical constituents

Crude protein	25.00 %	Crude oils and -fats	12.00 %
Crude fibre	6.80 %	Crude ash	5.80 %
Methionine	0.35 %	Lysine	1.45 %
Sodium	0.02 %		

Recommended use

Nutrition-related disorders in vitamin and selenium deficiencies.

Content of additives per kg

Vitamins, provitamins and chemically well-defined substances having similar effect:

Vitamin E (3a700) 6 000 mg

(in form of all-rac-alpha-tocopheryl acetate)

Vitamin C (3a300) 6 000 mg

Compounds of trace elements:

Selenium (3b801) 50 mg

(in form of sodium selenite)

Feeding recommendation

Daily:

Horses (≥ 600 kg b.w.) 100 g for approx. 3 weeks

Cows: 110 g for approx. 3 weeks

Cattle: 65 g for approx. 2 weeks

Cattle fattening: 45 g for approx. 2 weeks

Sows: 22 g for approx. 2 weeks

Calves: 22 g for approx. 1 week

Fattening pigs: 18 g for approx. 1 week

Feeding instructions

Due to the increased content of selenium compared to complete feed, this complementary feed may only be used up to 0.8 % of the daily ration fed to all animal species. For the feeding recommendation the content of selenium in the mineral feed has to be taken into consideration.

Storage

Shelf life guarantee is only valid for unopened packages, stored at a cool and dry place.
